Michigan Recovery & Reinvestment Plan

The economic recovery package is a one-time opportunity to rebuild Michigan’s economy and put Michigan citizens back to work. Governor Granholm has identified five key priorities for spending Michigan’s share of the economic recovery dollars.

- * Create new jobs and jumpstart Michigan’s economy.
- * Train Michigan workers and educate Michigan students for the good jobs here today, and the new jobs we create tomorrow.
- * Rebuild Michigan infrastructure -- roads, bridges, water and sewer systems, mass transit, broadband, health information technology, and schools.
- * Provide assistance for struggling Michigan families, helping them make ends meet.
- * Invest in energy efficiency and renewable energy technologies to create jobs, save money, and reduce our reliance on fossil fuels.
