## GRANHOLM ANNOUNCES HER PLAN FOR ALTERNATIVE WORK SCHEDULE

Recently, Governor Jennifer Granholm announced her plan to expand opportunities for alternative work schedules - including four, 10- hour days - providing flexibility for the services the state offers, reducing absenteeism and strengthening our efforts to make the State of Michigan a great place to do great work. As an added bonus, Michigianians will benefit from reduced traffic congestion and air pollution.

The long-term goal of a flex work schedule is to maintain consumer confidence while addressing the financial strain of skyrocketing energy costs both on the state budget as well as employee pocketbooks.

## IMPLEMENTING AG TOURISM RECOMMENDATIONS AIDS LOCAL ECONOMIES

LANSING- Michigan Department of Agriculture Director Don Koivisto today urged state municipalities to follow suit of two local governments and implement some of the recommendations of the Agricultural Tourism Advisory Commission to encourage the purchase of locally grown products as a means to keep Michigan dollars circulating in communities. Agri-tourism offers a broad spectrum of experiences from farm markets to wineries to Christmas trees to fall corn mazes and much more.

The Agricultural Tourism Advisory Commission was created as a result of bipartisan legislation signed into law in 2005. In 2007, the Commission compiled a report outlining the effects of local zoning on agricultural tourism; a model of local zoning ordinance provisions to promote agricultural tourism; recommendations concerning the use of logo signage to promote agricultural tourism; recommendations for other measures to promote and remove barriers to agricultural tourism; and any other recommendations concerning agricultural tourism.
